

PI: A. Kelleher

Executive Summary

We are requesting funds for a student tour guide program. The program consists of a group of graduate students who have been trained by the public affairs staff at Jefferson Lab to assist with and/or give Jefferson Lab tours. The students greatly benefit from their training and experience speaking to the general public. Public affairs benefits from having a willing workforce to help give tours and make presentations. And overall, Jefferson Lab benefits from the enhanced visibility gained through this additional tour capacity.
